

STEP 2 OF 3

Sign in to the app in 1 minute

You only need the **username** and **password** your seller gave you. You do it once: the app remembers.

This page: <https://tutoriaisdoapp.online/en/sign-in/>

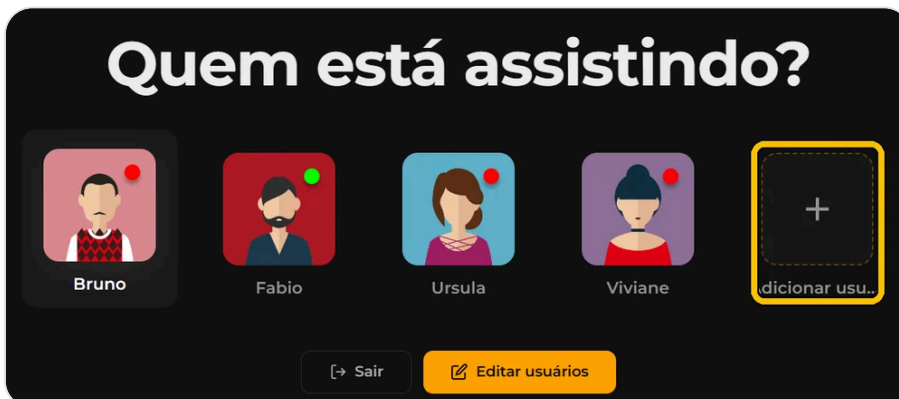

1 Open MaxPlayer and sign in one of two ways:

A — On the TV: type the **username** and **password** with the remote and select **Login**.

B — With your phone (faster): select **Get Code**, point your phone camera at the QR code and type the username and password on your phone. The TV signs in by itself.

2 On **Who is watching?**, select your profile. First time? Select **+ Add user**, pick an avatar with the yellow pencil, type your name and select **Add**.

If **Select List** shows up, pick the first one (usually **DNS 1**). Done: you are on the home screen.

Capital letters matter: "ABC" is not "abc". Type it exactly as you received it.

Don't create an account at my.maxplayer.tv (the line shown on the sign-in screen): that starts a separate trial, not your login.
