

STEP 3 OF 3

Find everything in seconds: channels, movies and series

The menu is on the left. Here is what each item does.

This page: <https://tutoriaisdoapp.online/en/use/>

In the menu	What's there
 Home	New releases and what you were watching.
 Live channels	Live TV, by category.
 Movies	Movies by category, with search.
 Series	Seasons and episodes.
 Settings	Settings and, if you have two lists, switching between DNS 1 and DNS 2.
 Notifications	Notices from your seller.
 Users	Switch profiles.

4 shortcuts everyone should know

- ✓ **Watch a channel:** pick the category, select the channel and press **OK** again for full screen.
- ✓ **Favorite:** hold **OK** for 2 seconds on a channel. It goes to the **Favorites** folder.
- ✓ **Movie or series:** select the title to see the synopsis and select **Play**. For series, pick the season and episode.
- ✓ **Subtitles and audio:** while watching, press the **down arrow** on the remote.

Remote without colored buttons (like Samsung)? In movies, press **OK** and a round menu shows the same options.
